

YEAR 2008: 38 DOCUMENTED DEATHS ATTRIBUTED TO THE CUBAN STATE

Not including disappearances or fatalities in exit attempts by sea

Despite persecution, fear of reprisal, and material/logistical limitations, Cuba's human rights' activists and independent journalists issue reports, from which the following information has been taken. The list below is not considered exhaustive, as reporting from many prisons and other locations inside Cuba is not possible and Cuba Archive may not have yet had access to some reports from the island.

Details and sources on all cases listed below are available at www.CubaArchive.org (Database).
